Complaints

We make every effort to ensure that our customers are happy with the level of service, and the products and service they receive from us. However, despite our best efforts, things can go wrong. We take customer complaints very seriously and aim to resolve them quickly and efficiently.

Our Code of Practice on Complaint Handling and Dispute Resolution explains how customers can complain. The code also provides information on how we deal with complaints and your right to take unresolved complaints to Alternative Dispute Resolution. You can find a copy of our Complaints Code on our website at www.smartinfosystems.co.uk. Alternatively, copies are available free of charge and on request from our Customer Service Team 02073779243.

Nuisance calls

We take the problem of nuisance calls and malicious communications very seriously. We tackle it by working closely with the police and others in the communications industry. If you have been a victim of this activity, please call the Customer Service Team on 02073779243 to report the incident and for information on how to deal with it.

We encourage parents to register the mobile phones of their children, and take responsibility for all customer care enquiries.

Services for people with special needs

We are committed to helping all our customers to communicate easily. We offer the following additional services on request for customers who are older or who may have a disability, including:

- [Priority access to the Customer Service Team](#)
- [Priority fault repair and assistance](#)
- [Additional help and support if you have difficulty paying your bill](#)
- [A free Directory Enquiries service for people who are unable to use the printed phone book](#)

Copies of this Code are available in larger print and other formats on request

Data protection

We comply fully with our obligations under the Data Protection Act 1998.

Part 2 - Smartinfo Ltd

Code of Practice for Premium Rate Services and NTS Calls

Purpose of this Code of Practice

This code informs you about our policies on providing information about Premium Rate Service (PRS) calls and on our charging policy for calls to NTS and PRS numbers.

Premium rate services

Premium rate services (PRS) are telephone numbers that offer some form of information or entertainment that is charged to your phone bill. UK-based PRS numbers are normally prefixed by "09". 0871 is now also designated as a Premium rate number and subject to PRS regulation. Typical services include TV votelines, mobile ringtone downloads, technical helplines, charity fund-raising and adult entertainment.

Charges for these services are added to your telephone bill. Calling a PRS number generally costs between 8.51 pence and £1.75 per minute, per call or per text (excl. vat). Calling these services from, for example, mobile phones, cable networks or public payphones will generally cost more than the advertised rate. Our charges for calling these services are shown in our price list, which is available on request from our Customer Services Team and via our website.

If you have a problem with PRS, we can help. We can provide advice on checking the telephone number of any PRS charges that appear on your bill and will try to help you identify the premium rate service provider. We can use call barring to restrict access to "09" numbers. Please call our Customer Service Team on 02073779243 for advice on this. We can give you a factsheet on PRS.

You can also ask for help from PhonepayPlus (formerly ICSTIS), which is the industry-funded regulatory body for Premium Rate Services. PhonepayPlus operates a code of practice that sets out standards for the operation of PRS. You can use the PhonepayPlus website at www.phonepayplus.org.uk to check PRS numbers direct or to download a complaint form. PhonepayPlus has legal powers to require a provider of PRS to amend its service or promotional material (or both) and can also impose penalties on content service providers. For other ways to contact PhonepayPlus, see the "Useful addresses" section below.

Number translation services

Number translation services (NTS) are based on numbers that are normally pre-fixed "08". For example, 0800 and 0808 are used to provide freephone services (some freephone services are also provided on 0500 numbers). 0844 and 0845 numbers are used for dial-up pay-as-you-go Internet access and customer service helplines. 0870 numbers are used for information services, technical helplines and telephone banking. They are also used by organisations to help them provide call-management features such as intelligent call routing and fax-to-email services.

Charges for calling services on NTS numbers are added to your telephone bill and standard prices range from free up to 8p per minute or per call (excl. vat). Calling these services from, for example, mobile phones, cable networks or public payphones will generally cost more than the advertised rate but communications providers must publish prices for calls to 0870 numbers where these are higher than for calls to geographic numbers. Our charges for calling these services are shown in our price list, which is available on request from our Customer Services Team and via our website. We can also give you a factsheet on NTS.

If you are unhappy with the help you have received from us on a problem with PRS or NTS, please contact [Eamon Coogan](mailto:eamon@smartinfosystems.co.uk) Tel:02073779243 or email: eamon@smartinfosystems.co.uk who has responsibility for compliance with our code of practice for PRS and NTS. You may also complain using the complaints procedure set out in our complaints code including, ultimately, referring your complaint to [CISAS](#).

Internet diallers

If you use the Internet, it is possible for software to be placed on your computer without you knowing - using the same methods as for computer viruses. This type of software (known as Internet or rogue diallers) can then make calls to PRS and NTS numbers without your knowledge. Software is available to detect this activity and we can help you to access this - please contact our Customer Services Team for details. PhonepayPlus has been given responsibility for policing this type of activity and you can contact them via www.phonepayplus.org.uk to ask for help or to report examples of this type of abuse. For other ways to contact PhonepayPlus, see the "Useful addresses" section below. We can also help by barring calls to 09 numbers.

The Telephone Preference Service

If you don't want to get sales and marketing calls you have not requested, you can add your details to a list run by the Telephone Preference Service (TPS). If your number is on the list, it is illegal for a company to call you for marketing purposes. You can contact the Telephone Preference Service via www.tpsonline.org.uk or by telephoning 0845 070 0707.
